Chair's Report

The operating environment for Housing Associations remains challenging, although government recognition of the crucial role we play in addressing the housing crisis has seen a much more supportive environment in recent times.

The roll out of Universal Credit has so far not affected many of our tenants but no doubt will do so as we move forward. We continue to support those who are struggling to make ends meet and are suffering hardship. The staff are committed to providing practical support and advice to all our tenants and strive to provide services of a high standard. As a small association we pride ourselves on being able to provide a much more supportive and personal service to our tenants.

PHA Homes operates in an area of high value and housing need. The need for social housing remains acute and we are committed to developing as many homes as we can to help address the local need for more homes. However, we are not just about numbers and the quality of the homes we build and own is also of real importance to us.

During 2018 the Board has undertaken a major review of how the organisation is governed, how we manage 'risk' and our operational environment. We believe that this has made us stronger and we therefore continue to move forward from a position of even greater strength.

We have already developed our new business plan for 2019-2023 and have made progress in implementing the new strategy. This could not have been achieved without the efforts and support of our partners, staff and Board members. I would therefore like to thank them for their ongoing support and hard work to ensure the ongoing success of PHA Homes.

We look forward to the future and are confident that PHA Homes will continue to thrive and support the local communities in our area of operation.

Hilary Channing
Chair of the Board

"As a small association we pride ourselves on being able to provide a much more supportive and personal service to our tenants."

- pursue potential mergers with organisations with similar values and geographic spread.
- continue to develop new homes for people in housing need
- work closely with the local authority to address homelessness and meet housing need

Our Performance Results

The Board carefully monitors performance to ensure that we can meet our commitments in the business plan and that we are demonstrating a culture of continuous performance improvement.

PHA Homes performance against peers is good and overall satisfaction levels remain high.

Area	PHA Homes Results	Benchmarking Group Median	National Results Median
Void Loss % (PHA was abnormally affected by homeless accommodation in 2018)	1.25	0.65	0.58
Lettings as % of stock	7	7	8

The housing sector faces a continuous drive for greater efficiencies whilst responding to the effects of rent reduction, Welfare Reform and the roll out of Universal Credit.

The Sector Scorecard

The scorecard, which was developed by a working group of associations in 2016, provides benchmarking figures for areas which are seen as key to association business performance PHA Homes was part of the sector scorecard pilot.

Some of the metrics are used by our regulator to assess 'the value for money' performance of housing associations.

Last year the scorecard was piloted with 315 housing associations submitting data with this year's report taken from data provided by 329 associations, owning 2.3 million homes and representing 80% of the stock.

The report has revealed that the average operating margin had fallen more than two percentage points to 27.89% from 30.3% last year. In a commentary report published by the National Housing Federation (NHF) this fall was explained as "a result of the ongoing rent reduction and greater pressure on costs".

Costs per unit has risen at above inflation across the years. While there has been a slight change in methodology, the report said this was likely due to landlords "putting more resources into operating services to deal with external factors such as welfare reform and fire prevention".

Results From The Scorecard	Sector Results	PHA Results
Operating margin (overall)	27.89%	43.27%
EBITDA (major repairs included)	213.61%	346.09%
New supply (as % of stock)	1%	0.32%
Gearing ratio (ratio of debt to assets)	87.5%	17.78%
Return on capital employed	3.72%	3.8%
Occupancy	99.4%	96.96%
Rent collected	99.9%	101.33%
Customer satisfaction	87.5%	97.4%

NOTE: EBITDA = Earnings Before Interest, Taxes, Depreciation, and Amortization (used as an indicator of the overall profitability of a business).

"PHA Homes will thrive and support the communities in our area operation."

From the Chief Executive

I hope that you have found this annual report informative about the work and performance of PHA Homes during 2018.

2018 was a very busy year for PHA Homes and we have achieved a considerable amount which has consolidated our position locally.

The tragedy at Grenfell has resonated across the housing sector and at PHA Homes' focus has been very much in ensuring the continued health and safety of all our residents. We have worked hard to ensure compliance with relevant legislation, and I am pleased to be able to reassure all our residents that we are fully compliant.

We have also been working closely with our trade body, the National Housing Federation, throughout the year to ensure appropriate support for smaller associations and to raise the profile of the excellent work of smaller housing associations on behalf of all our tenants.

We continue to look forward to another positive and productive year for PHA Homes.
